

SureShot IntelliShot offers accurate dispensing of your dairy products.

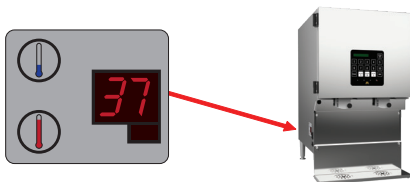

Model #: AC230-PC-29

Customers will appreciate taste consistency and speedy service. Employees will appreciate how easy it is to operate and clean. Operators will enjoy dramatic cost savings through bulk buying, controlling usage and maximizing operational efficiency.

This dispenser features buttons dedicated to both iced coffee and oatmeal. These specialty product buttons increase speed of service and reduce user error.

FEATURES AND BENEFITS:

- Infrared programmability for easy program updates and menu changes
- Includes an easy to read digital product selection / diagnostic display
- User-friendly control panel with an increased number of shot buttons (1-10) and one button push for all iced coffee selections
- Quick and easy calibration for improved accuracy and beverage consistency
- External SureTouch temperature display and adjustment capability

- Dramatic cost savings by eliminating the waste and excess usage associated with free-pouring liquids
- Includes countertop catch tray and product case caddy for use with 5 liter or 10 liter (2.5 gallon) dairy bags

- USA and Canada-wide Service Network with SureShot Technical Assistance Center support
- Warranty: 2 years, parts and labor
